

# Shell sh bash

bash shell

bash

```
sudo pkg install bash
```

bash

```
$ which bash
/usr/local/bin/bash
```

/usr/local/bin/bash chsh (change shell) user id

```
$ chsh -s /usr/local/bin/bash # user
$ chsh -s /usr/local/bin/bash ID # ID
```

chsh: user information updated

bash
